Degree: Associate of Science in Archaeology (AS)

## LIBERAL ARTS

**Transfer Program Description:** The Associate of Science degree in Archaeology provides students with the first two years of coursework towards a Bachelor of Arts degree in anthropology with a specialization in archaeology. This degree plan offers a broad background of liberal arts and science courses transferable to a four-year institution, focusing on the archaeological, cultural, and biological diversity of the human species. Students who plan to transfer to an institution that grants a baccalaureate degree to continue their study of archaeology should refer to the catalog of that institution for their degree requirements and consult with an ACC instructor of archaeology.
