

## Program Map Nursing Mobility Track

*Degree: Associate of Applied Science (AAS)*

### HEALTH SCIENCES

**Program Description** Nursing combines the art of caring with the science of healthcare for one of the most in-demand, high-growth career tracks in the industry. Graduates are eligible to become registered nurses (RNs), providing and coordinating care for patients in a variety of healthcare settings.

The Associate Degree Nursing Program Mobility Track is a course of study that includes classroom, laboratory, and clinical learning experiences for graduates who are licensed or certified and in good standing in the state of Texas in specified disciplines. These disciplines are: Licensed Vocational Nursing, Paramedic, Dental Hygiene, Radiology, Medical Laboratory Technology, Occupational Therapy Assistant, Physical Therapy Assistant, Sonography, Respiratory Therapy, and Surgical Technology. Military personnel and veterans trained and functioned in the last ten years as Army combat medics, Air Force Medics and Navy corpsman.

The Associate Degree Nursing Program is accredited by the Accreditation Commission for Education in Nursing, 3343 Peachtree Road, NE, Suite 850, Atlanta, Georgia 30326; (404) 975-5000; (404)975-5020; [www.acenursing.org](http://www.acenursing.org).

Students working toward admission into a Health Sciences Program are required to declare General Studies in Pre-Health Sciences degree as their major until they are officially accepted into a program.

Admission to the College does not guarantee admission to a specific health science program of study as these programs have additional requirements that must be met.

The following items are required by health sciences programs, but deadlines may vary by program. Please see division and program websites for specific details.

- Completed and submitted immunizations prior to submitting an application
- Proof of health insurance
- Criminal background check
- Drug screen
- Current CPR (Cardiopulmonary Resuscitation) American Heart Association (AHA) Basic Life Support (BLS) for Healthcare providers
- Completed health data form
- Verification of annual tuberculosis status
- Completed program information session

#### Technical Standards:

Health Sciences programs establish technical standards and essential functions to insure that students have the abilities required to participate and potentially be successful in all aspects of the respective programs. Students are required to meet published technical standards and essential functions for the program. See specific program website for details.

#### Additional Requirements:

Each program has specific admission requirements - see program website for detailed information.
